default			⌵
GET	/api/config	/api/config	🔗
GET	/api/time-zones	route_get_time_zones <GET>	⌵
GET	/api/time-info	route_get_time_info <GET>	⌵
GET	/api/config/database-connections	route_get_database_connections <GET>	⌵
GET	/api/config/database-connection	route_get_database_connection <GET>	⌵
GET	/api/config/database-queries	route_get_database_queries <GET>	⌵
GET	/api/config/database-query	Gets a specific database query	⌵
GET	/api/config/data-items	route_get_data_items <GET>	⌵
GET	/api/config/api-data-items	route_get_api_data_items <GET>	⌵
GET	/api/config/api-data-item	Gets a specific api data item	⌵
GET	/api/display/data	The current value of all display items by display item key.	⌵
PUT	/api/display/data	Update data items with supplied values indexed by data item key, missing values will be removed.	⌵
PATCH	/api/display/data	Update data items with supplied values indexed by data item key, only replacing supplied values, other values will remain the same.	⌵
GET	/api/display/error-state	a summary of current error conditions	⌵
GET	/api/display/data-items	The current value of all display items by display item name.	⌵
PUT	/api/display/data-items	Update data items with supplied values indexed by data item name, missing values will be removed.	⌵
PATCH	/api/display/data-items	Update data items with supplied values indexed by data item name, only replacing supplied values, other values will remain the same.	⌵
GET	/api/config/formatters	route_get_formatters <GET>	⌵
POST	/api/config/formatter	route_post_formatter <POST>	⌵
PUT	/api/config/formatter	route_put_formatter <PUT>	⌵
GET	/api/config/formatter	Gets a specific formatter	⌵
GET	/api/config/all-layouts	route_get_all_layouts <GET>	⌵
GET	/api/config/user-layouts	route_get_user_layouts <GET>	⌵
POST	/api/config/user-layout	route_post_user_layout <POST>	⌵
PUT	/api/config/user-layout	Update the user layout with the sent key	⌵
GET	/api/config/user-layout	Gets a specific user layout	⌵
GET	/api/config/active-layout	/api/config/active-layout	⌵
PUT	/api/config/active-layout	route_put_active_layout_login <PUT>	⌵
GET	/api/config/modbus-reads	route_get_modbus_reads <GET>	⌵
GET	/api/config/modbus-read	route_get_modbus_read <GET>	⌵
GET	/api/config/opcua-connections	route_get_opcua_connections <GET>	⌵
GET	/api/config/opcua-connection	route_get_opcua_connection <GET>	⌵
GET	/api/config/opcua-reads	route_get_opcua_reads <GET>	⌵
GET	/api/config/opcua-read	route_get_opcua_read <GET>	⌵
GET	/api/config/plc-connections	route_get_plc_connections <GET>	⌵
GET	/api/config/plc-connection	route_get_plc_connection <GET>	⌵
GET	/api/config/plc-reads	route_get_plc_reads <GET>	⌵
GET	/api/config/plc-read	route_get_plc_read <GET>	⌵
GET	/api/backup/download	route_get_backup_download <GET>	⌵
